2-WAY WRITING MADE PERFECT

1936 Sheaffer Catalog provided to the SCPC through the courtesy of Mr. Gary Lehner

The finest of all for all who write — for only SHEAFFER has all seven of the pen features most desired today. For SHEAFFER dealers and their salespeople this means the world's simplest sales story behind the finest product of its kind, insuring peak sales and profits.

SHEAFFER'S

Visulated

VISIBLE TO THE LAST DROP - INSULATED FOR PERFECT FLOW

THIS catalog includes all Sheaffer developments down to date. In addition to famous improvements such as FEATHER-TOUCH, TWO-WAY writing, the LIFETIME GUARANTEE, STREAMLINED BALANCE, ONE-STROKE FILLING, EMPTYING and CLEANING, enlarged capacity, visibility of SKRIP supply, and Dry-Proof point protection, some new developments are presented herein for the first time in a SHEAFFER catalog. These are:

1—VISULATED pen—with LAST DROP VISIBILITY and INSULATED FOR PERFECT FLOW. This sensational pen for the first time combines *visibility of fluid supply* with *insulation of the writing fluid reservoir* to overcome the effect of temperature changes. As a result the writing fluid always feeds perfectly to the two-way FEATHERTOUCH point. The transparent section gives ample warning of the need for refilling, because even after the fluid reaches this section, there still remains enough for more than 900 average words of writing. If this pen is purchased with the Lifetime Guarantee the user has the assurance of unequalled performance for life.

2—Two new streamlined color designs. GOLDEN BROWN is a warm, neutral tone shot through with narrow lengthwise bands of a gleaming, golden tone. ROSE-GLOW is a warmer pastel maroon, treated the same way. These color designs are such that they emphasize the Streamlined Balance of SHEAFFER pens and pencils. Sales reports show their hearty endorsement by the Sheaffer dealer organization and the public.

3—An entirely new Dry-Proof desk set line for 1936 Fall and Holiday trade. One hundred numbers priced at \$5.00 and up, complete with pen, comprising everything the most exacting clientele could desire in desk fountain pen writing equipment.

Good values, good lines, good designs, can neither be concealed nor imitated successfully. Quality goods sell readily because they do so much of the selling themselves. Sheaffer products are that kind of merchandise. They lead in sales because of their recognized quality. They lead in volume not just because they are powerfully advertised but because when a customer sees a Sheaffer, he recognizes it as super-fine, and when he tries it he senses the Balance and "feel" that convinces him. It pays to feature such merchandise.

This catalog is designed to reveal the simplicity, yet completeness of the Sheaffer line. There is a Sheaffer pen or set for every purse, every taste, every handwriting style. Reference to this catalog will keep your stock well-rounded and dealers are urged to keep stocks complete. If a customer concludes today that your stock is small or incomplete, then later when he is buying he will surely go where he can select from full stocks.

We cannot stress too strongly the fact that the introduction of the VISULATED pen does not supersede pens of the *One-STROKE* Vacuum-filling type. The SHEAFFER One-Stroke Vacuum-filling pen is the finest in its field. The demand for pens of this type insures their ready sale. Sheaffer advertising is featuring and will continue to feature the One-Stroke Vacuum-Fil pen together with the VISULATED pen.

2C1

The new GOLDEN BROWN Streamlined color design makes a thrillingly beautiful ensemble in this rich, DeLuxe presentation case trimmed with gold and satin. The price range is \$8.50 and up. Set illustrated No. 2C1, \$15.00.

2F76

This is the new Streamlined color design ROSE-GLOW in satin and gold DeLuxe presentation case. This is a combination having special appeal to the feminine trade, but preferred by many men, too. The price range is \$8.50 and up. Illustrated is No. 2F76, \$12.75.

2D32

One of the most successful color designs ever introduced by Sheaffer is Ebonized Pearl, still the outstanding favorite of a large part of the public. Here is an Ebonized Pearl color design in the DeLuxe presentation case. Price range \$8.50 and up. Illustrated, No. 2D32, \$9.00.

S2C32

This is a set designed for trading up the sale to those customers where a saving is very important. A two-piece set purchased in this attractive presentation case affords the customer a saving of \$1.00 over the cost of pieces purchased separately. For instance, set illustrated is No. S2C32, \$8.00. Pen and pencil purchased separately would cost \$9.00. Buying the set gives the customer a saving. Price range \$7.50 to \$14.00.

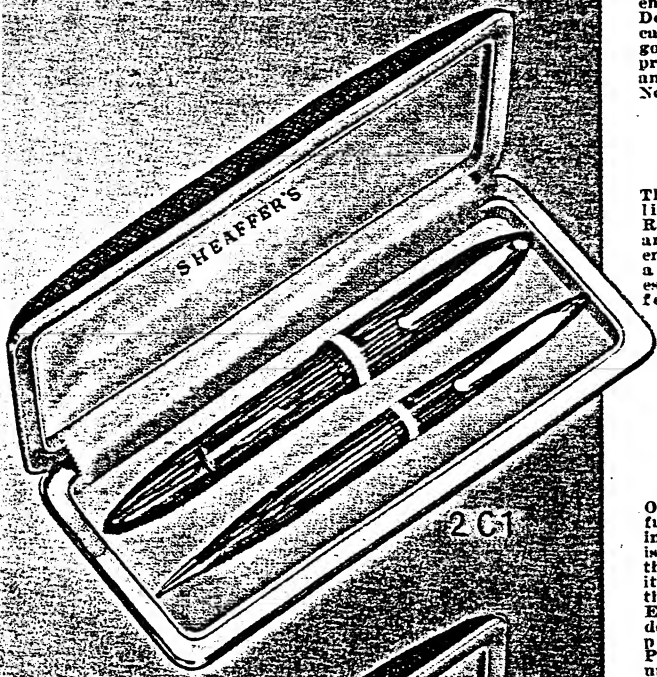

2A23

Sets at \$2.95, \$3.95 and \$5.00 are offered in this attractive Ensemble case containing an individual sample of SKRIP. These sets appeal particularly to students and sell readily to those desiring an exceptionally good value in a popular priced set.

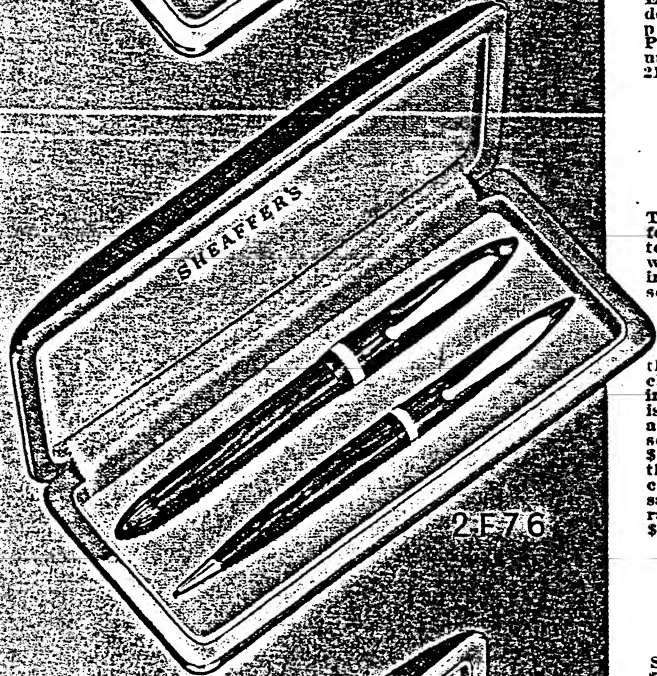

One of the greatest SHEAFFER contributions aimed at increasing dealers' pen profits by increasing the unit-of-sale is the SHEAFFER Ensemble containing a matched pen and pencil. Illustrated on this page are typical Sheaffer ensembles priced as low as \$2.95. Sets at \$8.50 and higher come in a beautiful presentation case, exclusive to Sheaffer.

For complete information on Ensembles, turn to pages 10, 11 and 12.

★ Illustrated are the 5 distinctive colors in the 1936 line—Ebonized Pearl, Black, Golden Brown, Rose-Glow and Grey Pearl. These are the famous Lifetime pens with the white dot signaling the broadest guarantee in pendum, and the platinum identifying the silk-smooth FEATHERTOUCH points. Identical values in either VISULATED or Visible barrel type, both supreme in their fields. ★

Joan Craig

The DeLuxe Autograph Line

SHEAFFER'S Autograph pens and pencils are the aristocrats of writing instruments. They are rated as fine pieces of jewelry. Their clips, bands, points and pencil tips are solid 14K gold. The owner's signature is placed on the wide band in facsimile engraving, making the pen a treasured lifetime possession that may be handed down to grandchildren. Perfect gifts for those who wish the finest. For details on Autograph Ensembles, see page 10.

* DeLuxe Autograph pens retail at \$18.00 but are billed to the dealer at \$17.50, less trade discount, so that Sheaffer may share the cost of facsimile engraving on the wide, gold band with the dealer. Similarly, pencils list at \$12.00 but are billed at \$11.50 less trade discount.

** "First Lady" models. See page 6 for size.

Don't fail to suggest Autograph as the finest obtainable for weddings, anniversaries, birthdays and "gifts to the boss."

First Lady

Introduced slightly more than a year ago, no style of pen has had a readier sale. Particularly designed with plenty of eye-appeal for ladies' use. Note the slender shape, the graceful, tapered design, the perfect proportion which each part of the pen bears to the whole. This makes it Milady's first choice. For details on Ensembles, see page 10. Identical values in VISULATED or Visible barrel types.

Propel-Repel-Expel Pencils to Match

There is a pencil to match every Sheaffer pen. The price range is \$1.00 to \$5.00. The Sheaffer pencil is famous for its propel-repel-expel mechanism. Built to last a lifetime. The finest materials are used in its construction and it is put together without the use of solder. The streamlined Balance pencil first incorporated the "break" in the middle so that the upper half of the pencil actuates the mechanism instead of the small cap used previously.

SHEAFFER'S DRY-PROOF DESK SET LINE

More varied, more beautiful than ever before is the 1936 SHEAFFER line of Dry-Proof desk sets. Numbering more than 100 designs, the line has a set to accommodate every purse and taste.

The SHEAFFER Dry-Proof line embodies the revolutionary improvement of the Dry-Proof socket. A little key in the section of the pen engages a fluted sleeve within the socket. A half turn of the pen causes the sleeve to move down ward, firmly locking the pen against the beveled shoulder within the socket.

The amazing thing about the Dry-Proof socket is that whether the pen is locked or unlocked, it air-seals within the socket. Making the simple half turn to the right does not push the pen further into the socket; it merely insures that the pen cannot come away from the socket shoulder until the user is ready for it. Thus the pen may be locked at night and stored away flat in a desk drawer with assurance it will not pop out of the socket and be dry the following morning. Many users lock the pen at each time of using with virtually no inconvenience.

In the illustration below the mechanism of the Dry-Proof socket is explained. Only SHEAFFER has the Dry-Proof socket. It eliminates entirely the major fault with desk sets of the past—drying out of the pen. When you sell Sheaffer Dry-Proof desk sets you can do so with the assurance they will render 100% satisfaction to the customer.

SHEAFFER desk sets are supplied with one of three pens—the Lifetime, No. 74D, ZYUBL, No. 5D, ZYUBS, and the No. 3D, ZYUBW. All desk set bases are shipped complete with pens, each of the proper color to match the base, but if it is necessary to order desk pens separately for replacement purposes, the price of the No. 74D is \$8.00, the No. 5D, \$5.00 and the 3D, \$3.00.

Skrip IN THE NEW SKRIP-WELL BOTTLE

THE SUCCESSOR TO INK

★ For all fountain pen and general use, recommend SKRIP. It takes six gallons of fluid to make one gallon of SKRIP at much greater cost than ordinary writing fluid. By distillation, all chance of molding and sediment is eliminated and permanency is increased, altogether making it the finest and most satisfactory writing fluid produced. SKRIP keeps both steel pens and fountain pens in better condition. It is made in permanent colors: Blue-Black, Royal Blue, Jet Black and Red, for all business records; and in Washable for schools and homes: Black, Blue, Green, Purple and Brown. Both types are plainly labeled.

Permanent Red SKRIP is the only permanent, sediment-free Red writing fluid produced. Point out to your customers that records of which one-half are permanent and the other half not, are not satisfactory. SKRIP will make them 100% permanent. SKRIP flows freely, dries quickly, spreads evenly and does not clog.

SKRIP, Successor to Ink, is designed primarily for perfect writing satisfaction under all conditions, and no property, however desirable, has been achieved at the expense of other properties equally desirable. It is a combination of all the properties which make for complete writing satisfaction.

Available now in the greatest writing fluid bottle improvement of all times — the SKRIP-WELL bottle. The SKRIP-WELL uses the last drop, makes fountain pen filling easier, eliminates the inkwell for steel pen dipping and keeps fingers clean.

SHEAFFER'S

SHEAFFER'S FRANCHISE PLAN

Sheaffer's distribution is principally limited to the jewelry, drug, stationery and those departments of department store trade, and Sheaffer's is entirely dependent upon the retailer. For the retailers' benefit and protection, Sheaffer's system of Profit-Sharing Commissions has been worked out.

This is a fair system which assures those dealers who feature Sheaffer merchandise and thereby obtain larger sales, greater remuneration in the form of more profit.

Profit-Sharing Commissions for Volume Purchases are paid as follows:

Yearly Net Purchases	Profit-Sharing Commission
\$ 250 to \$349	5%
\$ 350 to \$499	7½%
\$ 500 to \$749	10%
\$ 750 to \$999	12½%
\$1000 or over	16-23%

The above commissions are paid on all Primary Line merchandise, which consists of fountain pens, mechanical pencils and desk sets bearing the Sheaffer trademark purchased at a maximum basic trade discount of 40% from list price. The commission is paid when and if earned, in merchandise at net price, or by credit memorandum to apply on subsequent purchases and not on current account. The normal period for computing Profit-Sharing commissions is from January 1 to December 31 each year. If maximum rebate is earned prior to the end of a year, it will be paid quarterly should a dealer desire and request it.

A dealer who earns a \$50 rebate on \$500 purchases will, at the end of the year, or as soon as his account has been paid, receive a credit memorandum for the \$50. This \$50, to be taken out in merchandise, applies on the volume purchases of the primary line for the following year - so that all of his shipments including the \$50 for which he does not have to pay, figure in his following year's volume for purpose of rebate. This enables the dealer on this volume of business, to earn an 85% mark-up on every piece of Sheaffer merchandise which comes into his store.

To obtain the 40% basic trade discount, a new account is required to purchase \$50 or more net of primary line merchandise as an opening assortment. This is considered to be a minimum small town requirement to insure sufficient stock to accommodate the needs of the community. In larger towns and cities the requirement should necessarily be increased.

Discounts on Skrip, Skrip-Grip and Para-Lastik are entirely separate from pen, pencil and desk set discounts. They

range as follows:

Orders up to \$35 list	40%
\$35 to \$50 list	40-10%
\$50 and over list	50%

Adhesives ordered with Skrip take same discount as Skrip.

A cash discount of 2% is allowed for payment within 10 days on all Sheaffer merchandise. Merchandise purchased from the Wasp Pen Co., Inc., Fort Madison, Iowa, whose accounts are carried by the W. A. Sheaffer Pen Company, is NET 30 days, no cash discount.

Policies which have distinguished the dealings of the W. A. Sheaffer Pen Company since its formation, and which greatly enhance the value of the Sheaffer Franchise over any other in the Pen Industry, are listed below for your consideration:

1. To produce only the best and most reliable merchandise for the price asked.
2. No Retail Stores to compete with Retail Dealer. No sales to punch board or premium houses.
3. Most liberal in guarantee.
4. Sheaffer merchandise restricted to drug, jewelry, stationery, department and optical stores.
5. Consumers can buy only from retail dealer at a profit to the dealer. On occasional mail orders from consumers the profit is promptly mailed to the dealer entitled to receive it.
6. Shipments stopped to any dealer not selling according to established policies.
7. A plentiful but not over large variety in the line to assure an assortment giving dealer greater turnover with less investment. The line includes everything needed by the dealer so that other lines are not needed, giving the dealer an opportunity to concentrate on Sheaffer's and thereby earn a larger profit on a greater volume.
8. A comprehensive plan of national advertising using four colors and special positions where feasible, reaching 100,000,000 or more readers yearly.

Concentration is the surest road to pen profits. Concentration on the Sheaffer Line reduces pen inventory, quickens stock-turn, increases profit margin. It lessens selling time by eliminating comparisons, makes sales talks more effective. It enables you to say: "I recommend and stock Sheaffer's because I believe, upon investigation, they are the best!" Try it!

SUCCESS ★ CAN'T BE DENIED

★ Look over your store as if it were somebody else's, and you planned to buy it and put your own ideas to work.

How many items take up space and turn over slowly? How many turn busily but yield meagre profit? How many turn rapidly, with good profit at every turn?

Doesn't it seem wise to invest as little time, space and capital as possible in slow-motion, low-profit lines, and put all possible power behind good-profit lines?

Let's look at the record. Sheaffer's year-long sales records reveal how thousands of merchants, at first timidly, then boldly, featured Sheaffer, to the tune of mounting sales curves, until their pen counters earned more profit and good will per square foot and per dollar invested than almost any other selling activity.

As a result, Sheaffer outsells all others in America, which means that Sheaffer dealers out-profit all others, and to earn still more profit, the formula is simply to put still more space, display and salesmanship behind Sheaffer.

For sales success can't be denied! Sheaffer has what the people want! Every week thousands of pens are sold without profit to dealers — but not Sheaffer's! Now, more than ever before, the wise merchant will tie to Sheaffer, the line that protects price and profit without fear or let-up — will utilize the Selective Profit Sharing Plan and the other store-tested plans and promotions that are earning greater profits for Sheaffer dealers.

Look over this catalog carefully and order now if you want to gain and hold the high Sheaffer volume that means good profit, and the best value for your customer's money.
